Patriotic Wreaths

Instructions

1. Paint wooden clothes pins and let dry.

10 blue

15 red

15 white

With chalk paint, only a very thin layer is needed. The backs of the clothes pins do not need to be painted, but make sure to paint the front, sides and cracks of each one. Paint dries fairly quickly.

2. Paint tops and edges of wooden stars white and let them dry.

3. Place 10 blue clothes pins close together on the wire wreath. For remaining area, alternate red and white clothes pins. You can also place them in chunks (3 red, 3 white, etc.)

For best results, glue clothes pins to the wire wreath. Place a thin layer of glue underneath the middle circle of the wire and a on top of the inside circle. This is where the clothes pins will meet the wire wreath. Glue clothes pins 5 or so at a time in order to avoid drying.

Patriotic Wreaths

Instructions

- 4.) Glue white stars onto blue area of wreath and let dry.
- 5.) Tie string between red and white clothes pins a few in with the blue area to the left.
