# Mosaic Turtle

## Instructions (pt. I)

- 1.) Lay out the white piece of paper with the printed turtle template facing up.
- 2.) Cut out whatever pieces of green paper you want to use from the different marked paper. Cut small areas at a time to keep track of where they go.
3. Place a thin layer of Mod Podge in a small area and lay the green pieces down on the white paper. Place a thin layer of Mod Podge over each shape.
- 4.) Repeat steps #2&3 for the blue shapes.
- 5.) (Faster Version!) You can also use the white sheet with the turtle outline and unmarked paper to cut out whatever shapes you want and create your own pattern.
